◆ Summary

Software Engineer skilled in **Java, Spring Boot, and MySQL**, with experience in **building scalable APIs and backend systems**. Passionate about **problem-solving, system design, and microservices architecture**. Adept at working with **REST APIs, databases, and cloud technologies**.

◆ Education

🎓 **Govt. Engineering College Bikaner** – Bikaner Technical University, India *(2020 - 2024)*
Bachelor of Technology (B.Tech) in Computer Science & Engineering | CGPA: **7.82**

◆ Skills

🛠 **Backend & Programming:** Java, Spring Boot, Microservices
🗄 **Database & Storage:** MySQL, SQL, DBMS
⚙ **Tools & DevOps:** Git, Linux
🌐 **Frontend:** HTML, CSS, Bootstrap, Thymeleaf
📌 **Other:** DSA, System Design, OOPs

◆ Work Experience

🛠 **Web Development Intern** | Unicrop BioSciences (Jul 2022 - Aug 2022)

- Developed a **responsive company website** from scratch.
- Integrated **MySQL database** for dynamic content.

◆ Projects

🎬 **Netflix Clone** (Spring Boot, MySQL, React)

- Built a **Netflix-like streaming platform** with authentication & search.
- Designed a **REST API** for fetching & filtering movie data.

🔍 **Chrome Extension for Job Search** (JavaScript, Firebase)

- Developed a **Chrome extension** to save & track job listings.
- Implemented **real-time data syncing** with Firebase.

💬 **Chat App** (Java, Spring Boot, WebSockets)

- Created a **real-time chat application** with authentication.

- Used **WebSockets** for seamless message transmission.

🔹 **Positions of Responsibility**

🎯 **Head, Student Activity Center**

- Led **6 student clubs & 25+ members**.

- Organized the **college's first Techno-Cultural Fest**.

- Coordinated with faculty & university officials.

🔹 **Achievements**

🏆 **5-star coder** on Hackerrank
🏆 Winner of multiple **literary competitions**
